

Appendices A: Acceptance Letter

Acceptance Letter

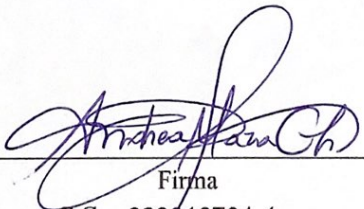

27th June 2022, Guayaquil, Ecuador

Carlos Mera, Ph.D.

Professor of Software Engineering at ESPOL.

I, Andrea Maza Chóez with identification number (C.I.) 093016704-4, as the Operations Chief of **HERMAPROVE**, allow myself to state that I am satisfied with the advances and functionalities presented on the Sprints 2, 3 and 4 related to the fixes on the scheduling section of the system, the new report section with filters and the Admin Dashboard to easily create data and manage Users. I certified that I validated the last version of the software in a meeting with the members of the team and that it was successfully deployed to our production's environments.

Kind regards,

Firma
C.C. 093016704-4
Operations Chief
